

Institutional Distinctiveness

Institute have clearly defined mission and policies directed towards academic excellence. The Institute is working towards its vision *i.e.* to be a leading institution in technical education providing education & training enabling human resource to serve nation & world at par with global standards in education by working towards its mission by developing state-of-the art Infrastructure which also includes establishment of Centers of Excellence in pursuit of Academic & Technical Excellence.

With above Vision, the Institute strives for academic excellence and make students suitable for every organizational need of the industry. Presently all eligible undergraduate programs B. Tech. - CSE, IT are NBA accredited till 30th June 2025. Hence, we are following outcome-based education in letter and spirit by involving contribution all stakeholders. The students are meant to serve in technical field by serving in Industry. With this objective we strive to build a seamless conduit between the industry and the Institute to provide quality technical manpower to suit every organizational need. This will facilitate good acceptability in Industry.

To have effective interaction with Industry, the Institute has signed MoUs with various industries such as Edugrad for Machine Learning in AI and NVIDIA Artificial Intelligence Cente of Excellence so that students get exposed to industry standards through live projects.

The objective of establishing ***NVIDIA Artificial Intelligence Centre of Excellence*** is:

Build an “Industry-Ready” AI talent pool

Promote AI research in Institute.

NVIDIA offers industry-leading solutions combined with extensive expertise and a broad ecosystem that helps educational institutes to create or expand an AI Center of Excellence for both teaching and research needs across all disciplines. With solutions for AI training and inference, data science, and advanced rendering, NVIDIA is uniquely positioned to help drive this transformation. NVIDIA’s AI computing stack is the most advanced in the world. The stack is optimized for every AI model and every AI framework. From data processing to AI model training to model deployment & inferencing, their solution addresses end-to-end development of AI.

Assessing the outgrowing need for engineering education in emerging domain, we decided on setting up of an AI based Centre of Excellence in association with NVIDIA for students and faculty where they'll be provided exposure to industry standards with high-quality in a competitive and challenging environment. This is the first Centre established in any private institute in Ghaziabad and we intend to extend the facility to students and faculty of all willing institutes in the vicinity.

The institute has also taken up the initiative of training the students with the third-party agency named Seventh Sense Talent Solution, Bangalore in which the third-year students are trained in different modules such as Aptitude, Reasoning, Communication, Group Discussions, Mock Interviews. This process of training helps the student to become industry ready and evolve in the ever-changing market of technology. The institute thrive for academic excellence and collaboration of Industry with academia to bridge the gap among them. This in return help us to get maximum of our students to be placed in the market, as the main goal of a student is to be placed.

Overall, the Institute campus is decent, green, clean with excellent infrastructure for which it was awarded consecutively 7th Rank in all India for Swachh Campus Ranking 2017 and 6th Rank in all India for **Swachh Campus Ranking 2018** by AICTE/MHRD, Govt. of India. Teaching learning atmosphere in the campus has shown its impact on overall performance of the students in **Smart India Hackathon** consistently with consolation prize in 2017, and winners under one or more problem statement in 2018, 2019, 2020 & 2022. Institutes *Institutions Innovation Council (IIC)*, established under the direction and norms of Innovation Cell, Ministry of HRD, Govt. of India is consistently performing well having secured 4.5 STAR out of 5 in 2019-20, 4.0 STAR in 2021-22 and 3.5 STAR in 2022-23. In ARRIA ranking 2021, the Institute got recognized as **“Band-Performer” under the category “Colleges/Institutes (Private/Self-Financed) (Technical)”**.

With above submissions, we can convincingly say that we are providing an atmosphere for students to be easily acceptable to Industry with excellent academic records
