Summary of the Event

The Institute's Innovation Council (IIC) of ABESIT in association with the ISTE ABESIT Chapter organized an event on account of the World Creativity and Innovation Day on Friday, 21st April 2023.

This day is an official UN Global Day which is celebrated to mark the importance of creativity and innovation in solving problems with respect to advancing the UN Sustainable Development Goals.

The event was a celebratory competition-style event that focused on embedding an innovative and problem-solving mindset into the institute's students which proved to be a massive success as the event faced active participation from students of all years from the institute making it a well-rounded event in terms of participation.

The event commenced at 3:00 PM (IST) with an address from the Director of ABESIT, Prof. (Dr.) M.K. Jha Sir for the motivation of the students. The event was a presentation-based event where the students worked in teams to present their ideas to a panel of judges comprising the Faculty of ABESIT specializing in various aspects of the industry. One after the other the students presented jaw-dropping presentations after which an elaborate discussion between the students and the jury ensued exploring all aspects and premises of the proposed idea.

The event concluded with 8 teams emerging victorious from the lot on the basis of their presentational skills and quick-of-the-bat thinking.
