Session on “Innovation and Start-up enablers on regional/state/national levels.”

Summary of the Event

The Institute’s Innovation Council (IIC) of ABESIT organized an expert talk on Innovation and Start-up Ecosystem enablers on the regional/state/national level on Wednesday, 21st June 2023 at 3:00 PM which was held by Dr. Rahul Amritraj Singh, Head of incubation at the Government Institute of Medical Sciences (GIMS), Gr. Noida.

The talk was targeted mostly at the students in 2nd year at the Institute and was open to students from both B. Tech and B. Pharm courses. The event saw widespread approval from the masses as the event had active participation from both the targeted courses and the students were giddy with excitement all throughout the event.

Upon Dr. Rahul’s arrival, he was thoroughly greeted by the faculty and the organizing committee, after which the talk commenced with Dr. Rahul taking the charge into his hands. He started by providing a brief of what he does for a living i.e., he explained how the GIMS is the regional center for medical innovation and how startups contact them in order to raise support and funding. He also provided insights into why and how the universities are willing to support innovation and devote funds to them.

The session talked extensively on the matter of how to decide whether an idea is good or not i.e., whether it benefits mankind, is it feasible, is the market for it, and many more parameters through which selectors determine the valuation of an innovation project. Dr. Rahul also put forward an initiative by GIMS named “A Coffee with GIMS” in which people willing to partake in entrepreneurship in the area of medical engineering are invited to the hospitals associated with GIMS where they can spend their whole day and identify a platoon of problems to work on or solve.

The session was kept extremely immersive and aimed to inspire, which was done through various audio-visuals that surely encapsulated the audience. The audio-visuals displayed the working structure and agenda of GIMS and showcased various innovations being carried out under the roof of GIMS. After the session, the speaker the floor towards the students for a doubt session where numerous thought-provoking questions and answers cleared every spec of confusion.
