

Name of The Activity:

World Environment Day

Summary of The Event:

The world environment day is celebrated every year on 5th June to raise global awareness to take positive environmental action to protect nature and the planet earth. It is a day that reminds everyone on the planet to get involved in environment friendly activities. From school children to community groups, companies and governments, all come together to pledge towards building a greener planet.

Keeping this aim in view, our Institute with the Department of Applied Sciences and Humanities celebrated this day on 5th of June, 2023. Some students from this department participated in this celebration and expressed their own views to save the environment and importance of it with the help of poster presentations.

All participants made a poster on the theme of Environment Day and later presented it with their view and ideas. They were judged on the basis of creativity of the poster, ideology and their presentation skills.

Total 29 students took part in this competition and faculty members of the department were present in this event. Everyone took part with great enthusiasm and with the aim to gain and share knowledge about the environment.
